“Supply teaching”, a most common profession, spreading in Europe union and in most of the Asian country. A supply teacher is actually a temporary teacher provide service in place of some permanent teacher via a firm or directly.

This book elaborates all the difficulties, faced by a supply teacher. The area of working of a teacher is just as a permanent teacher for a day or a definite period of time. In this book, Bill Rogers enlighten the duties of an ideal supply teacher through a case study.

This case study effectively shows the entire critical situation, faced by a supply teacher normally. It shows up the great effort of leadership that must be attaining not only by a supply teacher but a permanent teacher as well.

* *High School Teacher, Govt. (N) M. A. Jinnah High School, Latifabad No. 11, Hyderabad*

In fact the book discusses each and every aspect in a detailed way. Another plus point to be noted about is that, it covers all the situation and terms in accordance with the rules of different school. The book consider, some universal problem faced by the teachers from the students.

The nasty disruption, psychological confronting has also been discussed in different session and how to manage those critical situations. Beside all, it also gives an account of techniques that could be attained by a teacher to learn the class more effectively.

It also mentioned a number of case studies, examples and situational scenes about the maintenance of disciplines and core routine of the class so that one can have a crystal view about the way to mend them up. The study of this book is good for all who are in concern with the profession of teaching, through some mean. Furthermore, the efficiency of a supply teacher is also depend upon the behavioral and moral support of the host school in many ways.

The piece by Bill Rogers contains many core concepts that would be helpful in guiding the peoples who wants to adopt this as profession.

Although the piece is very efficient, but as a matter fact, it must have some contents about the role of permanent teacher in contrast with the temporary ones. In spite of that, the content is full of knowledge and experiences.
